

# Multi-Wavelength Pyrometers

**Williamson**  
Where Wavelength Matters

Some materials can be difficult or near impossible to measure with precision using single-wavelength or ratio pyrometers because of their complex emissivity characteristics. These types of materials are called non-greybody materials and their emissivity varies with wavelength.

## Typical Non-Greybody Materials

- Aluminum
- Magnesium
- Stainless Steel
- Brass
- Bronze
- Copper
- Zinc

## How Multi-Wavelength Pyrometers Work

- Multi-wavelength pyrometers use application specific algorithms to characterize infrared energy and emissivity across the measured wavelengths to accurately calculate both the actual temperature and emissivity of these complex non-greybody materials
- Algorithms have been developed and refined from extensive data collected from off-line simulations and on-line trials
- Each multi-wavelength sensor can hold up to eight selectable algorithms, so that the same pyrometer can be used for multiple applications

## Popular Multi-Wavelength Applications

- **Aluminum & Copper:** Extruded Surface, Rolled Surface, Cast Surface, Sheared Surface, Forged Surface, Brazing Operations, Coating Preheat, Dies & Molds
- **Steel & Zinc:** Cold Rolled Steel, High Alloy Steels, Electrical Steel, Zinc-Coated Steel, Shot-Blasted Pipe, High Strength Bearings, Motor Rotors
- **Other:** Glass Molds and Plungers, Magnesium Strip, All Other Non-Greybody Materials Listed Above

## Multi-Wavelength Specifications

|                            |  |
|----------------------------|--|
| Temperature Limits         | 200 to 4500°F / 95 to 2475°C (actual ranges vary by model)   |
| Spectral Response          | Range of precisely selected narrow wavelength bands  |
| Optical Resolution         | Range of optics selectable by model  |
| Accuracy                   | 0.25% of reading or 2°C whichever is greater   |
| Repeatability              | Better than 1°C  |
| E-Slope                    | 0.000 to 2.000   |
| Response and Update Time   | 50ms (initial response) with 25ms update time  |
| Analog Output              | 0/4-20mA output (max impedance 1000 ohms)  |
| Alarms                     | One field-selectable N.O. or N.C. Relay rated 1A@24V   |
| Analog Input               | 4-20mA/0-20mA input (impedance 250 ohms)   |
| Digital Communications     | Bi-Directional RS485 and RS232 Multidrop communications available  |
| Human Interface            | Built-in menu system with Averaging, Peak/Valley Hold (Time or Temp Reset), Programmable Outputs & Alarms & ESP Filters  |
| Measured Parameters        | Filtered and Unfiltered Temperature, Ambient Temperature, Signal Strength/Emissivity, Signal Dilution & Rate of Change   |
| Input Power                | 24Vdc (300mA)  |
| Ambient Temperature Limits | 0 to 150°F / -17 to 65°C<br>with Water Cooling Plate: 350°F/175°C (varies with water rate & temp)<br>with Protective Cooling Jacket: 600°F / 315°C<br>Fiber Optic Cable & Lens Barrel: 400°F / 200°C |
| Enclosure Rating           | Corrosion resistant enclosure w/ NEMA4X (IP65) rating. Optional IECEx and ATEX enclosures are available  |
| Weight                     | 3.6lbs (1.6kg)   |
| Dimensions                 | 3.5in x 3.5in x 8.25in / 89mm x 89mm x 210mm   |
| Certification              | Calibration certificate is standard with each unit<br>CE: EMI / RFI for heavy industry; LVD ( Low Voltage Directive)   |
| Warranty                   | 2 years  |

## Multi-Wavelength Technology

### Sample Field of View

Multi-wavelength pyrometers may be used at any distance as long as the measured target fills the sensor's viewing area (i.e. a full FOV). \* The diameter (d) of the viewing area is calculated as  $d=D/F$  where D is the focal distance of the sensor from the target and F is the optical resolution factor of the sensor.

*\*Aluminum extruded profiles and rolled bar algorithms can tolerate partial FOV.*

### Popular MW Pyrometer Applications

| Applications                   | MW Wavelength Code |    |    |
|--------------------------------|--------------------|----|----|
|                                | 10                 | 20 | 25 |
| Aluminum Extrusion and Forging |                    | ✓  |    |
| Aluminum Rolling Mill          |                    | ✓  |    |
| Aluminum and Copper Billets    |                    | ✓  |    |
| Copper Rod, Bar and Strip      | ✓                  | ✓  |    |
| Steel Hot Dip Line             |                    | ✓  |    |
| Steel Annealing Line           | ✓                  | ✓  |    |
| High Strength Steel Bearings   |                    |    | ✓  |
| Steel Tubes                    | ✓                  | ✓  |    |
| Shot-Blasted Steel Tubes       |                    | ✓  |    |
| Glass Mold Plunger             | ✓                  |    |    |

|           | 25*        | 03        | 200-700°F         | 95-375°C   | D/17                           | n/a                      | n/a                 | n/a                    |

\*Wavelength 25 not available as a fiber optic configuration

Note: Not all temperature ranges shown. Consult Williamson for longer fiber cable lengths

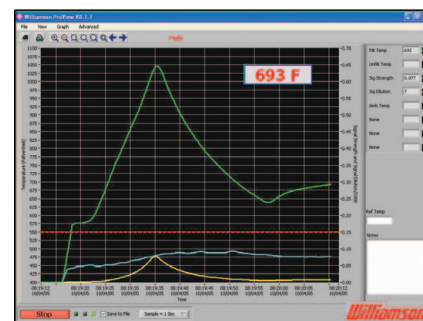

## E – Sensor Output (Select One)

| Part No. | Description   |
|----------|---|
| A        | Set to Analog Output/Input with linear mA output  |
| D        | Set to Digital Communications for operation w/ Interface Module or for 4-wire digital operation |

## F – Options (Must Be Specified at Time of Order)

| Part No.                 | Description  |
|--------------------------|--|
| <b>Traditional Style</b> |  |
| LA                       | Laser Aiming   |
| VALA                     | Visual Aiming and Laser Aiming   |
| <b>Fiber Optic Style</b> |  |
| AL                       | Built in Aim Light   |
| FLB                      | Flanged Lens Barrel  |
| LBMB                     | Lens Barrel Mounting Thread, Brass   |
| 4QT                      | Non-conductive Ceramic Quartz Tip, 4in/102mm long, threads onto end of fiber cable |

## ProView PC software

ProView PC software is compatible with Williamson Pro Series sensors. It may be used to log and analyze data and to make remote sensor adjustments.

### Traditional Style Mounting and Protective Accessories

Popular Williamson accessories include: Swivel Bracket (SB), Water Cooling Plate (WC), Air Purge (AP), Protective Cooling Jacket (PCJ) and a selection of Flange Mounts (FMxx)

Swivel Bracket, Water Cooling Plate and Air Purge

Flange Mount (includes AP)

Protective Cooling Jacket

### Fiber Optic Mounting and Protective Accessories

To simplify the installation and alignment of the pyrometers, Williamson offers a Fiber Optic Swivel Bracket (FOSB), Sight Tube Swivel Bracket (STSB), and a selection of Flange Mounts (FOFMxx/STFMxx).

Fiber Cable Mounting Brackets

Fiber Optic Flange Mount (includes AP)

### Fiber Optic Cable Options

Standard Fiber Optic Cable (Gn and Qn)

Cable with Stainless Steel Braid (SSB)

Cable with Heavy Duty ArmorGuard (AG)

Monofilament Cable (Mn)

Standard fiber optic cables are sealed with a Teflon jacket over a stainless steel sheath and are available in lengths of 3-30 feet (1-9 meters). For added protection, the flexible, lightweight Stainless Steel Braid or heavy duty ArmorGuard is available. These options include an air purge and stainless steel sight tube with a 1 inch pipe thread. For applications with very confined access or a high potential for electromagnetic interference, the monofilament fiber cables with a Teflon sheathing and Teflon outer jacket offer a smaller diameter of 0.05in/1.3mm and non-conductive packaging.

### G – Accessories

| Part No.                       | Description  |
|--------------------------------|--|
| <b>Traditional Style</b>       |  |
| AP                             | Air Purge  |
| SB                             | Swivel Bracket   |
| FMxx                           | Flange Mounts*   |
| PCJ                            | Protective Cooling Jacket  |
| <b>Fiber Optic Style</b>       |  |
| FOSB                           | Fiber Optic Swivel Bracket   |
| FOMAQ                          | Non-conductive Fiber Optic Mounting Assembly, Quartz Window                                      |
| STSB                           | Sight Tube Swivel Bracket (for use with SSB & AG)  |
| FOFMxx                         | Fiber Optic Flange Mounts*   |
| STFMxx                         | Sight Tube Flange Mounts (for use with SSB and AG)*  |
| <b>Pro Series – All Models</b> |  |
| IM                             | Interface Module, 1/4DIN, Outputs, Inputs, Relay Alarms Power to Sensor, Input Power (90-260Vac) |
| VCS                            | Vortex Cooling System includes Filter & Regulator  |
| ABF                            | Adjustable Bellows Flange 2" ANSI both ends  |
| WC                             | Water Cooling Plate  |
